The following is an examiner's statement of reasons for allowance: The instant invention obviates the need for distillation of large amounts of recovered distillate from a first column to separate cyclohexanone. The latter is then recycled to the reactor for preparation of more epsilon-caprolactone. Compare Comparative Ex. 1 with Ex. 1. The specific temperature and pressure conditions, which are recited in the independent claim, along with the results are considered to render the claims unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
